The political purpose of Indiana BANKPAC is to provide the opportunity for individuals interested in the future of the banking industry to contribute to the support of worthy candidates for state and federal office who believe in the principles to which the industry is dedicated. You have the right to refuse to contribute without any reprisal. The suggested amounts are only suggestions, more or less than the suggested amounts may be given, and the amount given or the refusal to give will not benefit or disadvantage the individual being solicited. State law requires Indiana BANKPAC to use its best efforts to collect and report the name, mailing address, occupation, and name of employer for each individual whose state contributions exceed \$100 in a calendar year. Contributions to BANKPAC are not tax deductible as charitable contributions for federal income tax purposes.

Indiana Corporate and Labor Organization Contribution Limits

Although corporations and labor organizations are permitted to make direct contributions to candidate committees, regular party committees, legislative caucus committees and political action committees, they must comply with the maximum amounts for contributions. A corporation or labor organization may not exceed these total contributions during any calendar year. (IC 3-9-2-4) In total, a corporation or labor organization may contribute up to \$22,000 per calendar year to campaign finance committees, including contributions made to a political action committee sponsored by the corporation or labor organization. (IC 3-9-2-5) No other contributions from a corporation or labor organization to a campaign finance committee are authorized by statute. (IC 3-9-2-3(b))

Please designate which category to direct funds to:

- ☐ \$5,000 - apportioned in any manner among all statewide candidates (not state legislative candidates);
- ☐ \$5,000 - apportioned in any manner among all state central committees of political parties;
- ☐ \$2,000 - apportioned in any manner among all candidates for state Senate;
- ☐ \$2,000 - apportioned in any manner among all candidates for state House of Representatives;
- ☐ \$2,000 - apportioned in any manner among all state Senate legislative caucuses;
- ☐ \$2,000 - apportioned in any manner among all state House of Representative legislative caucuses;
- ☐ \$2,000 - apportioned in any manner among all political party committees other than state central committees
- ☐ \$2,000 - apportioned in any manner among all candidates for county, local and school board offices.

Direct corporation and labor organization contributions to political action committees must be “earmarked,” meaning designated by the corporation or labor organization to go to one or more of the above categories and are subject to the limitations of each category. (IC 3-9-2-5) However, a corporation or labor organization is not required to designate a specific candidate or party when making its contribution. The reference to “specific” in IC 3-9-2-5(c) refers to a specific subcategory listed in IC 3-9-2-4. The limitations do not apply to nonpartisan registration and get-out-the-vote campaigns by a corporation aimed at its stockholders and employees. The limitations also do not apply to a labor organization’s nonpartisan registration and get-out-the-vote campaigns that are aimed at its membership. The limitations do not apply to a contribution or transfers by an incorporated nonpartisan political action committee to any other committee. It also does not apply when the contribution is supporting or opposing the approval of a public question submitted to the electorate of the entire state or a local public question. (IC 3-9-2-6)
