## Miami Marlins' 2019 recap

The Marlins finished 2019 as the **worst team in the National League**, going 57-105 and 40 games out of first place in the NL East. They were, however, a surprisingly above-.500 bet against the run line, going 84-78 with a 79-73-10 Over/Under record.

## Miami Marlins' playoff odds

The Marlins are **NOT A GOOD BET IN ANY WAY**, not for the World Series, not to win the NL pennant (+25000) and not to win the NL East (+15000), a division where the four other teams are +325 or less.

# For Red Sox, 2012 a year to forget

*The 2012 season was an **unmitigated disaster** for the Boston Red Sox saved only by a masterful August fire sale that gives the team a chance for future success.*

By Benjamin Buchanan | @OverTheMonster | Oct 5, 2012, 7:44am EDT

*"The Sox won't make the playoffs; there's too much ground to make up and the rotation remains suspect."*

*Pete Abraham, The Boston Globe*
