The Go Game Instructions

You are invited to play "Go Remote: Virtual Gameshow!"

Read the requirements below carefully. We know you are video conference PROS, but... this is DIFFERENT! It's more fun! If this is your first virtual Go Remote game, **please take a few seconds right now to visit the game link (below) to test video and audio permissions!** Gameday, join **10 minutes before** your slated game time so we are ready to start the game on time.

YOUR EVENT DETAILS
8/27/20, 04:30 pm, ET
Please **arrive early** so we can start on time.
Duration: **60 minutes**

YOUR GAME LINK
https://remoteteambuilding.com/gamelogin/-MFJE8P1RXfZzLwWwvPK?auth=0 (This link is in addition to the Zoom conference link which will be used for the rest of the conference schedule. We'll post this link in Zoom chat for all attendees to access there.)

REQUIREMENTS
- **Headphones** (absolutely required! Earbuds/Airpods are fine)
- A **laptop or desktop with webcam**. (no phones or tablets. Lower end systems may also have issues)
- **Quiet area away from other players or background noise**.
- Close all other browser tabs and applications
- A **good internet connection; minimize other activity on the same WiFi**
- **Chrome** or Firefox web browser
- Note: VPN is sometimes incompatible with the game. Please plan accordingly

DO I REALLY NEED HEADPHONES?
Yes, you need headphones. Unlike traditional video calls, we may be playing music, videos, and you will spend very little time "muted." In order to keep the media from echoing for all the other players, everyone must use headphones. Air pods and earbuds are fine. Cheap airline headphones are fine. Your kid's headphones are fine.

TROUBLESHOOTING
- **Refresh your browser** (make sure you are using **Chrome**)
- Try an 'incognito' browser window
- Disconnect from VPN
- Reboot
- Connect using an iPhone and we will troubleshoot from there.
