REGULATORY UPDATE

We will begin our day with Regulatory Update as usual. Normally this portion of the day focuses on final rules or items you need to immediately address in your bank. However, in this session we will include additional topics, including pending changes to regulations such as the Community Reinvestment Act and Regulation O, as well as other regulations that may be changing during 2027.

MAIN SUBJECTS – LIVE SEMINAR

01 Finance Charge and its Implications and Servicemember Issues

Although the credit and banking industry has changed dramatically, the Regulation Z rules governing finance charges have remained unchanged for more than 25 years. Due to the increasing number of new fees and charges identified during our loan file reviews, as well as many finance charge questions received through our hotline, we will explore this topic in depth.

As part of that discussion, we will look at the APR implications of finance charges and their impact on higher-priced mortgage loans (HPML), high-cost loans (HCL), qualified mortgages (QM), and other related compliance issues. We will also review examination procedures applicable to these loans. The QM discussion will include ability to repay (ATR), and points and fees, as both are a part of the QM process.

IMPORTANT NOTE: Before we begin our fourth quarter sessions, we will ask attendees to provide information about new fees that are appearing for all Regulation Z consumer loans - both real estate and non-real estate consumer loans. We will include a discussion of those fees in our presentation.

While many fees do not create compliance concerns, we will also discuss strategies for minimizing the impact of "newly" identified finance charge items, particularly in connection with mortgage loans.

02 Servicemember Issues

We have received numerous hotline questions regarding both the Servicemembers Civil Relief Act and the Military Lending Act. During this seminar, we will provide a detailed review of these laws and regulations, including the related examination procedures, to help ensure you understand your compliance responsibilities and the steps necessary to meet all applicable requirements. Exam procedures will be included in our discussion.

Future Presentations and Suggestions

Subjects for future seminars are shaped by regulatory events as they unfold. The CBC quarterly compliance program remains committed to providing as much up-to-the-minute information as possible. The program will closely monitor releases from the CFPB and other agencies to ensure you receive the most current and accurate information possible.

The subject matter for these presentations is often determined by regulatory actions and/or issues that are problematic for banks. However, we always welcome and consider requests received from CBC members regarding topics they would like us to address. Please email suggestions to Bill Elliott, CRCM, at bille@younginc.com.
